## SKILLS

|                               |           |
|-------------------------------|-----------|
| Problem-Solving               | ● ● ● ● ● |
| Communication                 | ● ● ● ● ● |
| Creativity                    | ● ● ● ● ● |
| Data Analysis (Pandas, NumPy) | ● ● ● ● ● |
| Artificial Intelligence       | ● ● ● ● ● |

## CERTIFICATES

**Python Programming  
Bootcamp(Microsoft Certification)**  
Completed a practical Python training program, focusing on coding exercises, data handling, and real-world project applications.

**Python Programming  
Bootcamp(Google Certification)**  
Completed a hands-on Python bootcamp covering fundamentals, data structures, and mini-projects, gaining practical programming and problem-solving skills.

## PROFILE

Dedicated CSE with AI student with a strong foundation in Python, HTML/CSS, and data handling. Demonstrates excellent problem-solving ability, creativity in design, and clear communication skills. Passionate about exploring AI-driven solutions and developing efficient, user-friendly applications. Committed to continuous learning, contributing to team success, and applying technology to solve real-world challenges. Eager to grow in dynamic environments and take on responsibilities with professionalism and enthusiasm.

## EDUCATION

**B Tech in computer science engineering(AI), Mar Baselios  
Christian College of Engineering & Technology,peermade**  
07/2025 – Present | peermade

**Catholicate Higher Secondary School,pathanamthitta**  
06/2022 – 03/2024 | Pathanamthitta

## PROFESSIONAL EXPERIENCE

**Data Analyst at ANIX & CO**  
I worked on analysing and cleaning data, preparing clear reports, and helping the team make better decisions using tools like Excel, SQL, and Python.

## PROJECTS

**Exam hall Automation System**  
worked in project's data managing

**House Price Prediction**  
Developed a machine learning model to predict house prices using Python. Applied data cleaning, feature engineering, and linear regression on real estate datasets, and visualized results to evaluate model performance. Gained hands-on experience in data analysis, modeling, and interpretation of results.

**skillswap**  
An innovative skill-exchange platform that connects users based on what they can offer and need, featuring a dynamic review system and interactive polls to enhance trust, engagement, and community-driven decision-making.

## INTERESTS

**AI Development** — Passionate about developing AI solutions and exploring machine learning techniques to solve real-world problems., **Web Development** — Interested in designing and developing responsive web applications using modern technologies to create practical and user-friendly solutions., **Data Analyst** — Focused on securing a Data Analyst position to contribute through data analysis, visualization, and insight generation.
